

Smiling is infectious

Smiling is infectious,
you catch it like the flu,
When someone smiled at me today,
I started smiling too.

I passed around the corner
and someone saw my grin.

When he smiled I realized,
I'd passed it onto him.

I thought about that smile,
then I realized its worth.

A single smile, just like mine
could travel round the earth.

So, if you feel a smile begin,
don't leave it undetected.

Let's start an epidemic quick,
and get the world infected!
